SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with hands-on experience building full-stack web applications, secure authentication systems, and AI-powered solutions during an internship at Bharat Electronics Limited. Passionate about backend engineering, machine learning, and large language model applications, with experience developing scalable software using React, Node.js, PostgreSQL, Docker, and modern AI frameworks. Seeking Software Engineering internship opportunities to build impactful products at scale.

TECHNICAL SKILLS

Programming Languages	Web Technologies	Databases	AI / Machine Learning
Python	HTML5	PostgreSQL	TensorFlow
• Java	• CSS3	• MongoDB	Scikit-learn
• JavaScript	• React.js	• MySQL	NumPy
• C	• Node.js		
• C++	• Express.js		

EXPERIENCE

Software Intern — Bharat Electronics Limited (BEL) May 2026 – June 2026

- Developed an AI-powered Medical Prescription Generator that converts doctor speech into structured digital prescriptions with editable workflows and professional PDF export.
- Built an intelligent ICD-10/ICD-11 document chatbot using Retrieval-Augmented Generation (RAG), semantic chunking, vector embeddings, and LLM-based question answering.
- Designed responsive full-stack web applications using React, Node.js, Express.js, PostgreSQL, MongoDB, and RESTful APIs.

PROJECTS

AI Medical Prescription Generator

- Created a full-stack healthcare application that transforms doctor speech into structured medical prescriptions using speech recognition.

ICD Query Chatbot

- Developed a Retrieval-Augmented Generation chatbot capable of answering queries from uploaded ICD-10 and ICD-11 documents.

OAuth Authentication System

- Developed a secure authentication platform implementing JWT authentication, OAuth2/OpenID Connect, PostgreSQL, Docker, KrakenD API Gateway, and Nginx.

EDUCATION

Bachelor of Technology

Expected Graduation: 2028

Vellore Institute of Technology, Chennai
Computer Science and Engineering (Artificial Intelligence & Machine Learning)
